

IIIT-H IT POLICIES
International Institute of Information Technology,
Hyderabad

2022-v1.0

E-Mail Usage Policies

1) Email Access

Emails can be accessed through web-based clients and for users who want to use their customized mail clients, they can configure on their devices.

Institute has provided mailing services through the following mail access

- a) Microsoft o365 cloud outlook for Faculty, staff, students and alumni using webmail <https://webmail.iiit.ac.in>
- b) MS o365 outlook apps mail client
- c) Email attachment limit is 20MB.

Note:- Preferably Microsoft supported mail clients are:

- **Windows** Outlook 2010, Outlook 2013/2016
- **Mac OS** Apple Mail for Mac
- **Apple iOS** Apple Mail for iOS
- **Linux** Thunderbird
- **Android email client apps** BlueMail, Outlook, Cleanfox , Gmail, K-9mail etc.

2) E-Mail Moderations on group mailing lists

IIIT-H has mailing lists for faculty, staff, and students to moderate emails.

The following is the moderation for the broadcasted email: Detailed information about various mailing lists may be found at <https://intranet.iiit.ac.in> under IT Services.

The HR Office manages the mailing list for faculty members, staff, committee members, offices, etc. The R&D Office manages the mailing list for project staff and research staff.

Students batches add and deletion by IT Office as per the request from Academic office.

1.1) Student to Student

Broadcast emails from a student to 'students' will be moderated by a student moderator group, appointed by student parliament. Student parliament will suggest members (say five) who will do the moderation. It will not be moderated by IT-Team.

1.2) Staff / Faculty to Students

The emails of faculty and staff will not be moderated. All faculty and staff will be added to the automatic approval list. Faculty can send emails from their personal email addresses to lists, and we may allow further emails to be submitted without moderator approval.

1.3) Student to Staff/Faculty

The email messages sent by students to staff/faculty will not be moderated by any moderator. If it is found that a student has sent an inappropriate or unnecessary email, then staff/faculty members should reply to that student educating them about the situation/problem.

Note: No e-mails will be moderated by the IT team. The IIIT-H community is in-charge of broadcast mail moderation. It is expected that users would act appropriately.
